Sulaiman Bukhsh

Full-Stack Software Developer | React · TypeScript · Node.js

Salford, UK | sulaimanbukhsh@gmail.com | sbukhsh.co.uk | github.com/Solatyre

PROFESSIONAL SUMMARY

Final-year BSc Computer Science student and full-stack software developer. I build responsive, accessible web applications with JavaScript, TypeScript, React, Next.js, Node.js and SQL databases. I have shipped five projects, including an encrypted secret-sharing app and data dashboards on PostgreSQL. Seeking a graduate software developer or web developer role.

KEY SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3
- **Front-end:** React, Next.js, Vite, Tailwind CSS, responsive web design, accessibility (WCAG), data visualisation (Recharts, Chart.js)
- **Back-end:** Node.js, Express.js, RESTful APIs, Supabase, client-side encryption (AES)
- **Databases:** PostgreSQL, Prisma ORM, relational database design
- **Tools:** Git, GitHub, GitHub Pages, Vercel, ESLint, VS Code
- **Professional:** problem-solving, debugging, teamwork, client communication, negotiation, stakeholder management

TECHNICAL PROJECTS

Zero-Knowledge Secret Sharer — Live demo · GitHub

Next.js, TypeScript, Supabase, Tailwind CSS

- Developed a full-stack web app that shares passwords through one-time links, encrypting data with AES in the browser so the server stores only ciphertext.
- Debugged and fixed a data-deletion bug, then deployed to production on Vercel.

Code Tuner Viz — GitHub

React, TypeScript, Express.js, PostgreSQL, Prisma

- Built a software-metrics dashboard with 5 views: overview, complexity histogram, class sizes, trends over time and repository benchmarks.
- Designed a RESTful API in Express.js and TypeScript over a PostgreSQL database modelled with Prisma ORM.

Software Complexity Dashboard (team project) — GitHub

React, Tailwind CSS, Node.js, PostgreSQL

- Collaborated in a team using Git to deliver a data-visualisation dashboard that highlights code-complexity hotspots.

Logic Loop — GitHub

React, TypeScript, Vite, Tailwind CSS

- Created an interactive e-learning app for logic and AI maths with 4 difficulty levels, quizzes and 5 hands-on labs, including k-nearest neighbours and Bayes' theorem.

Portfolio Website — sbukhsh.co.uk

HTML5, CSS3, JavaScript

- Designed and deployed a responsive, accessible personal website on a custom domain with HTTPS via GitHub Pages.

WORK EXPERIENCE

Property Sourcer — Self-employed

- Sourced investment properties and matched them with buyers and investors, acting as the intermediary on each deal.
- Negotiated terms with estate agents, landlords and investors, building long-term client relationships.

EDUCATION

BSc (Hons) Computer Science — Expected graduation: 2027

University of Salford
